

BETA TEST PLAN EXAMPLE

< MICROSOFT TEAMS EXAMPLE />

BETA TEST PLAN EXAMPLE

1. Project context

Microsoft Teams is an online collaboration app that centralizes professional communication (messages, meetings, and files) in a single workspace to facilitate teamwork. It works with teams and thematic channels where users can chat, share and co-edit Office files, and organize audio/video meetings all within the same interface.

2. User Roles

The following roles will be involved in beta testing.

Role Name	Description
Admin	An administrator manage organisation settings, create and delete teams, assign roles, and control access to resources
Employee	A regular user who can participate in conversations, join teams, send messages, share files, and participate in video calls

3. Feature table

All of the listed features will be demonstrated during the beta presentation

Feature ID	User role	Feature name	Short description
F1	Everyone	Login	A user can log in with an existing account
F2	Admin	Create a new team	Create a new team with a name
F3	Everyone	Add members to a team	Add new members to an existing team
F4	Everyone	Remove members	Remove a member from a team
F5	Everyone	Create a new channel	Create a new channel in a team
F6	Everyone	Rename a channel	Renaming an existing channel in a team
F7	Everyone	Delete a channel	Delete a channel from a team
F8	Everyone	Send a message	Send a text message in a channel or conversation
F9	Everyone	Receive a message	See messages sent by others in near real time
F10	Everyone	Delete a message	Delete one of your own messages
F11	Everyone	Mention someone	Mention a user with a targeted notification
F12	Everyone	Attach a file	Attach a file to a message in a channel
F13	Everyone	Start a video call	Starting a video call from a channel or conversation
F14	Everyone	Join a video call	Join an ongoing video call
F15	Everyone	Mute/unmute audio	Mute and unmute your microphone during a call
F16	Everyone	Turn on/off video	Enable/disable video during a call
F17	Everyone	Leave call	Exit a video call properly
F18	Everyone	Access settings	Access a page with basic account settings

4. Success criteria

Feature ID	Key success criteria	Indicator/metric	Result
F1	A user logs in with their email address and password without any errors	20 attempts, 0 failures related to the application	Achieved (20/20)
F2	Creation of a team visible in the list of teams	5 teams created, all visible	Achieved
F3	Adding members immediately makes the team accessible to newcomers	10 additions, all functional	Achieved
F4	UA removed member no longer has access to the team's channels	5 withdrawals, 1 residual access bug	Partially achieved
F5	Creating a channel makes the channel visible to all members	5 channels created, all visible	Achieved
F6	Renaming a channel updates the name for all members	5 renames, consistent across all clients	Achieved
F7	Deleting a channel removes it from the list and blocks access	3 deletions, 0 phantom channels	Achieved
F8	A text message is sent and appears in the channel	50 messages sent, 0 lost	Achieved (50/50)
F9	Received messages appear in less than 2 seconds	Average latency < 2 seconds over 30 tests	Partially (2.3 s)
F10	The user can delete one of their messages and it will disappear from the channel	10 deletions, all effective and persistent	Achieved (10/10)
F11	The mentioned user receives a visible notification	20 mentions, 20 visible notifications	Achieved
F12	An attached file is uploaded and can be downloaded by other members	15 files tested, 1 failure	Partially achieved
F13	Starting a video call connects at least two participants without crashing	10 calls, 1 crash	Partially achieved
F14	Joining an ongoing call takes less than 10 seconds	15 attempts, 14 successes	Partially achieved
F15	Mute/unmute effectively changes the audio status for other participants	20 switches, all taken into account	Achieved
F16	Enabling/disabling video updates the display for everyone	20 switches, 2 significant latencies	Partially achieved
F17	Leaving the call properly ends the local session	15 outings, 0 zombie sessions	Achieved
F18	Accessing the settings allows you to change at least one setting (language, etc.)	10 changes, all saved	Achieved
